

Reply faster and type less – With PhraseExpress

Trier, 09/09/2016 – Bartels Media GmbH releases version 12 of the typing productivity software “PhraseExpress”.

New Features at a Glance:

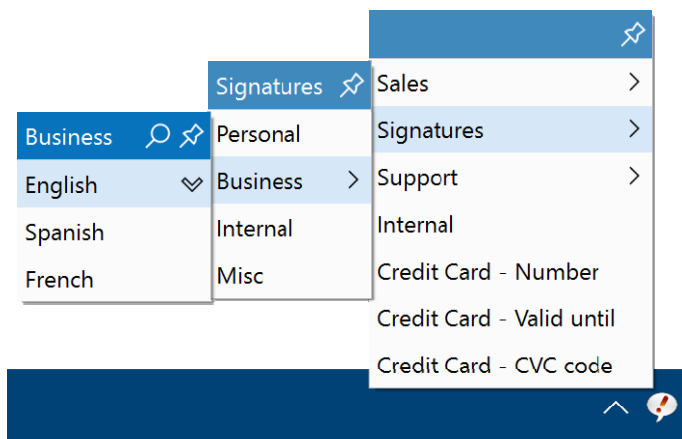

- Compatibility with PhraseExpress versions for Apple Mac, iPhone, iPad and Android
- Multi-language support for canned responses SQL databases
- Refreshed user interface with Ribbon menus

Eliminate Repetitive Typing

PhraseExpress manages frequently used boilerplate templates for quick insertion into any application.

Text snippets and canned responses are organized in a customizable folder structure and can be triggered by hotkeys or by entering text abbreviations.

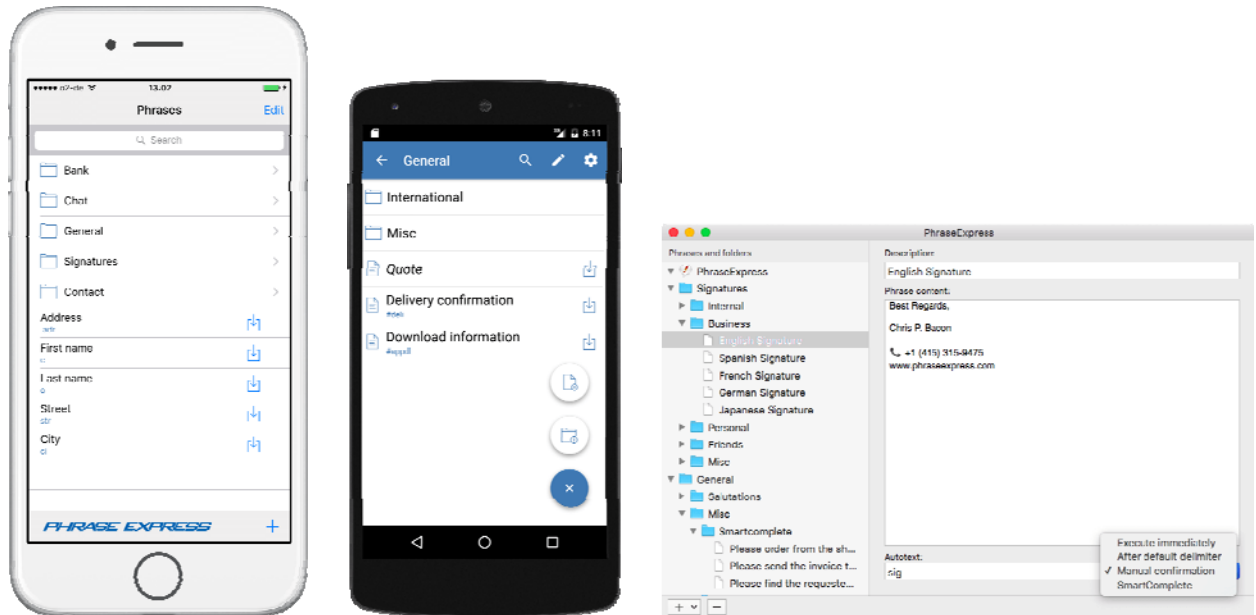

Snippets can also be selected from a phrase menu, saving users from memorizing autotext shortcuts:

PhraseExpress supports Firebird or Microsoft SQL servers including Citrix/TerminalServer for use in professional network environments.

Cross-platform support for Windows, Apple Mac, iOS and Android

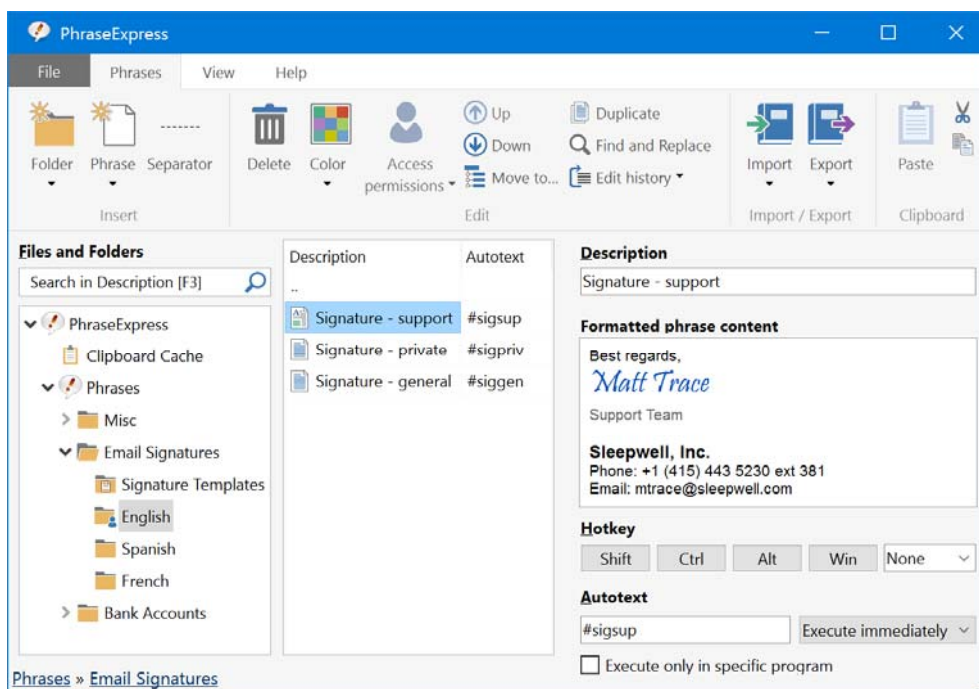

The new Windows version 12 is prepared to synchronize phrases with upcoming versions for Apple Mac, iPhone/iPad and Android:

Beta versions for macOS, iOS and Android are available now.

Microsoft Office 2016 Look & Feel

Microsoft Office 2016 users feel at home with PhraseExpress v12:

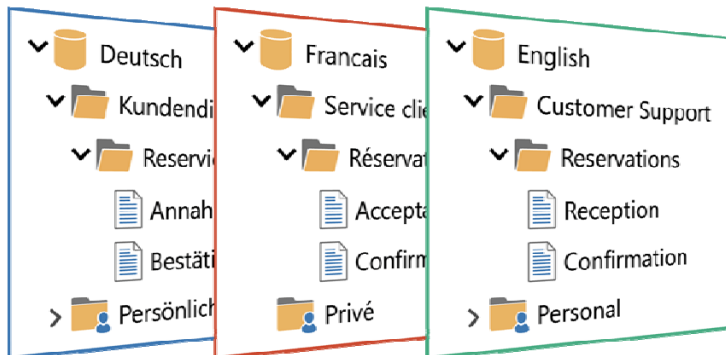

The ribbon menu automatically adapts the layout to serve functions matching the user's work flow.

The optional new three column user interface layout simplifies managing phrases in large databases.

Multi-Language Phrase Library

PhraseExpress v12 can now switch phrase library between multiple languages:

This comes in handy for technical support teams dealing with international customers.

Switching phrase libraries only updates phrase contents and description. The phrase library tree structure, autotext abbreviations or hotkey associations and other settings remain the same.

Free for personal use

PhraseExpress v12 is available at <http://www.phraseexpress.com>

There is a portable and a freeware edition available (Limitations and more info at <http://freeware.phraseexpress.com>). Professional use licenses start at 49.95 USD.
